

Obsidian Tide Hospitality Rider

Crew

Obsidian Tide are 3 musicians. We require a FOH engineer as well as a lighting engineer. We will confirm the crew number before the show, as for some shows we might bring a guest musician or our own FOH engineer.

Backstage

We ask for a clean area to prepare before the show, and cool down after the show. Toilets, Wi-Fi, towels, drinking water and a kettle are all highly appreciated.

Catering

Not mandatory, but we would appreciate drinks and snacks being available backstage. We have one person with mild lactose intolerance.

Parking

We will confirm this before the show, as it might vary, but in general, for festival shows we won't need a parking spot. For touring shows, we require one large van parking spot.

Merch

Please provide a table where we can sell merch (unless we discussed another arrangement).
